

**Position** Ross is Managing Director and owner of ValQuip Consulting, an independent plant and equipment valuation practice providing fixed asset valuation solutions.

## Experience

**Valuation** Ross has over three decades of experience in asset valuation and consulting services. He has provided specialist valuation advice to multinationals throughout Australia, Asia, and Europe to aid in preparing taxation, financial, insurance and general valuation strategies. He has assisted clients with independent valuations and advice to support their positions on purchase price allocation, stamp duties, and tax-consolidation-related issues. Ross has been undertaking valuations of plant, infrastructure, and machinery and equipment since 1990.

**Industry** Ross' general experience includes the following:

- > Manufacturing
- > Mining
- > Transportation
- > Infrastructure
- > Utilities
- > Health care

**Business** Ross' career spans more than a decade at a big 4 accounting firm and several years as a Managing Director at an international appraisal company. His trusted advice spreads to all corners of Australia and throughout the globe including Asia and Europe.

He has led valuation teams negotiate the complex and challenging world of tax consolidation valuations for some of the largest companies in Australia. His experience also embraces providing valuations to corporations for the MRRT (the now defunct mining tax), landholders/land rich stamp duty, TARP (taxable Australian real property) and impairment calculations.

Ross has assisted clients with independent valuations and advice to support their positions on purchase price allocation and other related issues.
